** ARGENTINA [non]. 15770, Fri March 27 at 1212, RAE via WRMI, S9 direct, from Spanish to multilingual ID reel, then in Italian, about genetix and space. Italian is axually the language sked this hour M-F on System C as in the RAE-only grid, but in the System C grid itself, shows 1200-1230 only and something else 1230-1300, when I have yet to check. Months ago, an Italian DXer asked me to confirm Italian from RAE, but I try not to be awake at this time (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Fri Mar 27 at 2300, after ToH runup, RAE via WRMI, multi-lingual ID reel twice in a row, S9+40, 2302 tangos, and nothing but good music further on, including 2332 check (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Mar 31 at 2250, WRMI IS & ID leadup to ToH programming; 2300 timesignal and right into music; 2305 applause, Spanish songs, 2309 multi-lingual RAE IDs; bigsig rest of hour just music, nice enough and more multi-IDs (Glenn Hauser, OK, WOR)

** ASCENSION. 6180, Mon March 30 at 0519, sped-up dialog in African language, S9+10/20. HFCC shows BBC Hausa daily except Sundays. Brasil would not be on at this hour, but watch out: not in HFCC (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28460 USB, Mar 31 at 2206, VK3EY calling CQDX several times. Fortunately fonetix since when pronouncing his letters, the E sounds like A or even O, to Amerears. QRZ.com: ``VK3EY Australia flag Australia, ROB PUISE, NO DIRECT QSL, No Email QSL, SHEPPARTON, VICTORIA 3632, Australia`` -- so still some SW signals out of Shepparton! (Glenn Hauser, OK, WOR)

** BRAZIL. 25875 LSB, March 27 at 2218, unID in colloquial Brasuguese, beeps, extended CB (Glenn Hauser, OK, WOR)

** BRAZIL. 28270+, March 30 at 2207, dash and VVV PY4MAB. WGB list: ``28270.5 PY4MAB - Pocos {sic} de Caldas MG BRA GG68re - #0/1/3 (29 Mar 2026) Note: VVV ID + grid + BCN + 5" carr - Cobra 142 gtl mod. ant vert 10W - QRZ.com: ``MAURICIO BERALDO, LUIZ ZANGIACOMI 145, POCOS {sic} DE CALDAS MG ZIP CODE 37704-274, MG, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28475 USB, March 30 at 2210, PY3PZ. QRZ.com: ``PY3PZ Brazil flag Brazil,
PAULO ROBERTO NEVES BARBOZA (PY3PZ), P.O. BOX 86, Sao Gabriel RS - CEP 97300-970, Brazil`` - with lots of photos of pets & people (Glenn Hauser, OK, WOR)

** BRAZIL. 28495 USB, March 30 at 2211, PU1SHK calling CQDX, QRZ in English. QRZ.com: ``PU1SHK Brazil flag Brazil, Matheus "Matt" Miller, Campos Dos Goytacazes, RJ, Brazil`` and nothing but antenna photos (Glenn Hauser, OK, WOR) see also EL SALVADOR [and non]

** CHINA. 13870, March 26 at 1418, Chinese S4/S5, so CNR1 jammer against SOH (Glenn Hauser, OK, WOR)

** CHINA [non]. 5990, March 27 at 2312, S9+10 of dead air in CRI relay via CUBA; and no signals at all on 13650; nor RHC 11950. SAWA (Glenn Hauser, OK, WOR)

** COLOMBIA. 28612 USB, March 28 at 1935, HK1T with quick contest contacts. QRZ.com: ``HK1T Colombia flag Colombia, Salim (Sal) Gechem R., Barranquilla, Atlantico, Colombia`` Hardlyany phonehams venture above 28.5, let alone 28.6 MHz (Glenn Hauser, OK, WOR)

** COSTA RICA. 28467- USB, March 27 at 2214, TI2VVV calling CQ DX and working; slightly low in frequency. QRZ.com: ``TI2VVV Costa Rica flag Costa Rica, Victor carrera, San Jose Costa Rica, hatillo, Costa Rica`` and full of certificates (Glenn Hauser, OK, WOR)

** CUBA [non]. 530, March 28 at 0655 UT, JBA music, too weak to be R. Enciclopedia if on; that leaves CHLO Ontario (Glenn Hauser, OK, WOR)

``Hello Glenn, FYI, Encic 530 has been running at low power for at least several weeks, compared to their historical baseline. No doubt apagón related. The Rebelde tx on Isla de la Juventud has been burying them most of the time here. David E. Crawford, Indian River City, Florida Libre`` (via Glenn Hauser, WOR)

** CUBA. 5025, March 26 at 0632, S9+20 of dead air from R. Rebelde, SAWA (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 27 at 0635, S9+20 of dead air from R. Rebelde, proving that waste of precious electricity is inconsequential. Something`s always wrong at Radiocuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 28 at 0626, S9+20/30 of dead air from R. Rebelde. Standard remarx. No RHC frequencies found on now (Glenn Hauser, OK, WOR)

** CUBA. 5025, Mar 29 at 0630, S9+25/30 of dead air, electrical and fuel wastage from R. Rebelde. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 30 at 0517, S9+30/40 of deadair from R. Rebelde; a lot of that lately. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 31 at 0649, S9+35 of deadair from R. Rebelde. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 27 at 2226, S9 of dead air with windhowl from RHC; 11880 clear DA S9+20; both same still at 2314 check. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, Mar 29 at 0637, RHC S9+28 of deadair. Something`s always wrong at RHC; no others found with 9710 Vaticanned (Glenn Hauser, OK, WOR)

** CUBA. 15140, Mar 29 at 1424, RHC in Spanish S9+20 and even better on 11760. BTW, have not run across legacy 15230 frequency in many weeks of random tuning; nor 13780 which was a new frequency briefly (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 30 at 0528, RHC Spanish sportstalk, SSOB S9+30; still on at 0714, S9+20 (Glenn Hauser, OK, WOR)

** CUBA. 11760, Mar 30 at 2158, S9+10/20 of dead air from RHC, SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 31 at 0056, S9+10/25 of deadair from RHC, SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, March 31 at 1511, S9 of dead air from RHC; trace of mod? Probably from 15150 WMLK overload. 11880, March 31 at 1515, S9+20 of dead air from RHC, where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 11760, Mar 31 at 2220, S9+10 of deadair from RHC, except for some rapid clickery wideband but seemingly centered and out of this

transmitter. 11880 is S9+10 of clear deadair. 15140 not on. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, April 1 at 0616, RHC still on, music and Spanish, S9+25 with some windhowl (Glenn Hauser, OK, WOR)

** CUBA [non]. 13820, March 26 at 1417, this Greenville with R. Martí is much stronger than // 13570. Ailing transmitter? Of course they would be on different azimuths for E or W Cuba. O yeah? HFCC B25 shows both 250 kW at 184 degrees, but 13570 from 1300, 13820 from 1500. So it`s off-the-side for us (Glenn Hauser, OK, WOR)

** CUBA [non]. 13720, March 29 at 1447, R. Martí S9+5 on new frequency, ex-13820, but still on 13570, 11930, 11860. HFCC A26 shows available 14-01 UT, despite ARS also on 13720 at 18-23 - probably wooden, and ISS at 2000-2030. No other new USAGM Spanish frequencies registered. Was there a problem with 13820? Zero registrations of broadcasters there now, nor 13815; and no 13825s in the WHem (Glenn Hauser, OK, WOR)

** CHILE. 28444 USB, Mar 31 at 2209, CE6UYI calling CQ in English; severe QRM from a stronger signal on 28445 USB. QRZ.com: ``CE6UYI Chile flag Chile, Whatsapp : +56985181345, Gregorio Andres "ANDRES" Becker Adrian, CC 655 LICAN-RAY, LICAN RAY, IX Chile``. Meanwhile the local noise level on 10m is very low, barely nudging the S meter. Argentina, Brazil, Chile, Uruguay are typical deep South Americans around this time on 10m; wonder how many F2 hops (Glenn Hauser, OK, WOR)

** EL SALVADOR [and non]. 24940 USB, Mar 30 at 2201, YS1ZZ working stronger PU2KNM who stays on frequency with CQ DX. QRZ.com: ``YS1ZZ El Salvador flag El Salvador, Markus Paul Pfiffner, Club Atami, La Libertad, El Salvador``. And:

PU2KNM Brazil flag Brazil, CLAUDIO, RUA:PAULO NEDOPETALSKI 215, BAIRRO ALTO DA TENDA, APIAI, SP 18320000, Brazil`` (Glenn Hauser, OK, WOR)

** GALAPAGOS [non]. 28444 USB, March 27 at 2306, HC8M/5, quickie DX contacts, for a contest? Heavy accent, fonetix sound like Japón Charlie 8 mike, slash 5, but must have been Hotel, ``not in Galápagos``, i.e. back on continental Ecuador, but still good for WPX purposes?? QRZ.com: ``HC8M Galapagos Islands flag Galapagos Islands, Contest Station, Edgar Villavicencio, San Cristobal, Galapagos Islands`` (Glenn Hauser, OK, WOR)

** GUAM. 15625, Mar 30 at 2219, Chinese music and talk, fadey S7/S9, unseems ChiCom style; yes, it`s KSDA at 21-23 (Glenn Hauser, OK, WOR)

** JAPAN. 774, March 27 at 1217, not even a JBA carrier from NHK-2, a 500 kW outlet I have DXed in the past here unto deep North America as perhaps the most likely E Asian signal; TP MWDXing has not been feasible since I became a night owl needing to sleep well past sunrise; nor the three other 500 kW NHK2s on 693, 747, 873 kHz, any of which I would like to hear one more time before they`re gone, as notified in the WOR iog and on WOR 2340:

``NHK announced R2 will close its 95 years history at 1505 UT on March 29, 2026. At 1500-1505 last closing message will be on air. Most of the programs of R2 will be transferred to "NHK AM" (former R1) and "NHK FM" after March 30, except; Arabic Lesson, News in Thai/Chinese/Korean/Vietnamese (to online only), Stock Market Reports, "Easy Japanese" (to NHK World Radio Japan) and other 4 programs. The transmission licenses of all R2 stations (including 4 500 kW sites - Shobu (Tokyo) 693 kHz, Ebetu (Sapporo) 747 kHz, Ogata (Akita) 774 kHz, Otsu (Kumamoto) 873 kHz) will be expired after April 1, 2026. NHK says

they will save 37 billion yen for the next 20 years by ending R2. Takahito Akabayashi, Tokyo, Japan`` (Glenn Hauser, OK, WOR)

** JAPAN. 11815, March 26 at 1419, R. Japan S6/S9 translating something into English, 1421 music, 1422 report of someone invading the ChiCom embassy in Tokyo. From March 29 in A26, this 1400 moves to 11800 and becomes the *only* English, with the 0500 relay via France canceled (Glenn Hauser, OK, WORLD OF RADIO 2340)

** MADEIRA. 28559 USB, March 28 at 1933, CQ2W making quick contest contacts. Not in QRZ.com, but three contacts around this time in dxheat/cluster (Glenn Hauser, OK, WOR)

** MALI [non]. 5995, Mar 28 at 0629, no signal from Bamako, normally audible not fading out till later (Glenn Hauser, OK, WOR)

** MEXICO. 730, March 30 at 0505, anthem playing but not the national, then ID for XEHB, ``La Más Picuda``, 104.7. Reminds me not to assume it`s XEX on 730 - now reduced to only 60 kW and several others listed. XEHB is in Hidalgo del Parral, Chihua2. Picuda translates as Barracuda, really? But the whole slogan as ``The Baddest One``. I had logged it in 2010y, after it moved from 770 (Glenn Hauser, OK, WOR)

** MEXICO. 730, Mar 30 at 0643, ``La Más Picuda`` as I tune across, so XEHB Hidalgo del Parral, Chihuahua, seems to be the dominant XE here, 50/1 kW - I bet they are on daypower or close to it (Glenn Hauser, OK, WOR)

** MEXICO. 28459 USB, March 28 at 1930, XE1YL, making quick contest contacts in Spanish, English, QRZ? QRZ.com: ``XE1YL Mexico flag Mexico, Patricia Mohedano, Plazuela del Refugio 1429, Col. Plazas de Amalucan Puebla Pue., PU 72310, Mexico`` (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13690, Mar 29 at 0635, RNZP S9+10/25, VG ex-13755/11725, sounds like BBC on 9915 but not // or way out of synch (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 7440, Mar 29 at 1352, RNZP JBA S6/S7, ex-7390. Still inadequate here but not for us anyway and will only worsen into our summer. Sked 13-17 with only 50 kW on 325 and/or 35 degrees (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 28480 USB, March 27 at 2212, ZL1WN calling CQ and working WA2QWP, unheard. Good signal unlike 17675 RNZI at 2224, JBA carrier, which is operating about 10/11 MHz too low for the MUF! QRZ.com: ``ZL1WN New Zealand flag New Zealand, ROSS BIGGAR, 210 Oroua Rd, R D 5, Palmerston North 4475, New Zealand`` and no QSLing (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed Apr 1 from *1400, State of Oklahoma emergency operations center secure test net, or something like that, NCS this time as WSHM692 is OM, A.K.? Williams. No sign of YL NCS Breanna this week. Is a directed net, 12345, 54321, pause 30 sex to tune your transmitters. Calling for check-ins, one at a time without locations which I insert from previous monitoring:
WQYW443, Beckham County;
WQZT582, Broken Arrow;
WQSY836, Byng EOC, answered;
WNPV700, Durant EOC, Bill ans; as usual much louder signal than any of the others including NCS
WQYW883, City of Moore, answered but unheard here
WNUW216, OKC;
WNUW215, Ponca City, ans but unheard;
KNGR728, Pontotoc County, ans but unheard;
WPFY721, Seminole EOC, answered, he could hear Byng & Durant but not

another;
WNBM839, Stillwater, Steve? ans JBA;
WNCH624, Tulsa;
WNBE830, Jefferson City MO, ans JBA;
1406, any others? None, closing net until next week. 1407 clear but says FEMA-3 test will be at 9:20; nothing heard at 1420, maybe on another frequency.
1408, QSO between WPFY721 and WNBE830 making early check-in: Seminole needs rain that Jeff City is getting; 1409, all clear. 1430 heard traces of signals in MO net, not trying to monitor that (Glenn Hauser, OK, WOR)

** OKLAHOMA. 90.1, UT Sat Mar 28 at 0359, Classical KUCO with IDs for WPNE 89.3 and WHAD 89.7, which are in Green Bay WI and Delafield, adjacent Door County also mentioned, amid `Beyond the Barrier`, 2-hour ambient music show. These were not funding acknowledgements, but legal IDs as if we were really listening to those stations. Also heard the IDs at an odd time during previous hour. Never noticed this before on BtB, which I try to hear every UT Sat at 0300-0500 on KUCO. I guess it originate on WPR, but WPNE is supposedly on the WPR News network, WHAD on Music network. It`s also replayed a few hours later before sunrise, part of KUCO`s secret overnight programming. I searched out info:

https://www.wpr.org/shows/beyond-barrier
``WPR Beyond The Barrier -- Host Chris Kuborn’s musical journey is continuing on from “Jazz Odyssey.” Since 2006, Chris offered listeners the best in modern jazz. He’ll now take listeners on another musical journey into the world of electronic and ambient music. “Beyond The Barrier” features soundscapes and music from the early pioneers in this genre to today’s newest artists. The program also features live, never-before heard music created just for each episode.

Schedule - This program has been retired. Hosted by Chris Kuborn. Note: “Beyond The Barrier” ended production on May 17, 2024. Archives of past programs are available below.`` But there are still current March 2026 dates for episodes:
https://beyondthebarrier.net/?m=202603
(Glenn Hauser, OK, WOR)

** PUERTO RICO. 28495 USB, Mar 31 at 2205, KP4N in Spanish contact. QRZ.com: ``KP4N Puerto Rico flag Puerto Rico, FRANCISCO CRESPO VEGA, HC 58 BOX 13421, AGUADA, PR 00602, USA`` (Glenn Hauser, OK, WOR)

** ROMANIA. 9730, March 31 at 0057, S9+20/30 songs, SSOB? 0100 RRI ID in Romanian; sked only 0100-0157 to ENAm via Galbeni (Glenn Hauser, OK, WOR)

** SPAIN. 15390, Mar 29 at 1422, checking out REE`s new A26 frequencies, this one continues to be AWOL on the African beam, ex-AWOL 17755 for months. 17715 is S9 and SSOB for S America, even better than 15500 for NAm S7/S9: at least that`s an improvement over 9690 in B-season which was way too low on an all-day path even in winter. 15520 for ME is JBA S5, but might be needed for us at the next transmitter failure (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Mon Mar 30 at 2159, REE missing from new NAm frequency, which was on yesterday. 15390 for Africa also AWOL. But 15520 for ME is VG S9 and could pass for NAm beam if we didn`t know better. Even stronger on 17715 for S America S9+30/40. 2200 `España es Música`. Advance program sked shows token English is still expected Wednesday at 2200, a repeat of 1004 UT when not on SW (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Tue Mar 31 at 2158, REE in Spanish resuming NAm frequency silent yesterday, S9+20/30 but sounds slightly louder on //

15520 for ME S9+20 and 17715 for SAm S9+20/10, still no 15390 for Af; 2200 into French, so QRX for token English 24 hours later on Wed (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed Apr 1 at 2200, REE TS and English, in NAm best on the SAm frequency, S9+20/30, but plenty off the back to ME on 15520, S9+10/20, and for NAm on 15500, S9+20/30; Af 15390 still missing. Previews subjects: digital rights protexions vs AI, a fair in Madrid; 2201 news leads with Spain closing its airspace to USA due to Iran war; can`t use two US bases there. Not afraid of reprisals. Similar restrixions in France, Italy. Clip of Marco Rubio about NATO... And we have to close down with lightning storms approaching. And there is something rather more important about to happen from Florida into International Vacuum (Glenn Hauser, OK, WOR)

** TAIWAN. 9560, March 26 at 1427, S3/S5 open carrier, 1431 in Japanese with music bits. Is Furusato no Kaze from Japan via Paochung for Korea North (Glenn Hauser, OK, WOR)

** TURKEY. 5960.003+, March 27 at 2259, JBA carrier direct, still at 2311, so is it remnant of VOT, or East Turkistan? At 2330 into UTwente, when measured, certainly VOT with Turkish music S9+30/40, nothing but music except for promos, 2338 ``with-you-every-hour``, 2347 ``always-by-your-side`` and 2352 multi-lingual ID filler reel (Glenn Hauser, OK, WOR)

** TURKEY. 6125.003+, S9+20/30 & 7285.018-, S9/+15 into UTwente, Mar 29 at *0359, VOT cuts on with IS, timesignal, and opening Malay!!! It`s A26 now and Malay should be on 17720 only, one UT hour earlier than 05 in the B-season. Those were the English! frequencies at 0400 in the B-season; missed checking, but English is now to be at 0300 on 6165 & 7275, and the targets exchanged between S Asia and N America. So they`ve got the wrong language AND on the wrong frequencies! At 0440 still on 6125 & 7285, nothing on 17720. Something`s extremely erroneous at Emirler - if not awry at Ankara. Will they get this unraveled by 24 hours later? Also: why does VOT make one-hour shifts between A and B seasons? Turkey does NOT observe DST, stays at UT+3, and many of its targets, including India and Malaysia, do not either! No wonder they get unnecessarily confused (Glenn Hauser, OK, WOR)

** TURKEY. 17620, Mar 29 at 1308, VOT`s NF for first English of the day from 1230, only JBA S3/S4 here despite aimed thisaway beyond W Europe. Could not be sure it`s really in English. No doubt the five English repeats will continue claiming to be at 1230 on 17620 (Glenn Hauser, OK, WOR)

** TURKEY. 15320, Mar 29 at 1425, ME music, suspect Turkey NF, also at 1445, and at 1500, 5+1 timesignal, news. Yes, HFCC shows TRT/VOT in Turkish at 1300-1600, 250 kW, 310 degrees also thisaway (Glenn Hauser, OK, WOR)

** TURKEY. 11660.019+, Sun Mar 29 at 1645, VOT English on new A29 frequency and time, for S Asia, but good S9+25 backwards into UTwente, and the first convenient chance for me to monitor weekly `Letterbox Programmme`. It had been airing right after the news but not any more, or at least not today. Efsun with her careful but hard-to-follow accent lasted until 1648, then `Geoeconomix Diary` read by Cemre, about the IMF and World Bank. 1657 multi-lingual ID filler reel. 1659 classical music from Borodin`s Polovtsian Dances! 1703 finally `Letterbox` theme and Cemre opening; first gives new A26 English schedule, but forgets to include the final repeat at 03 UT. 1706 finally to letters: 1) Annan? --? Bayn?, of SWL club in India about last week`s contest, but first he`s against the war in Iran, praises VOT for ``impartial`` news about it. The answer to the contest was somewoman whose name I can`t possibly copy, apparently a celebrity in

Turkey, a dietician? and champion free-diver, explaining what that`s about; Of 58 entries, 55 got it right [and why should we care...?]. 2) Mr --? Nakamura, Kyoto, Japan, heard 9660. 3) Jayanta Chakraborty, New Delhi, wrote thrice this week; is economist; IDing a song for him, logged Russian broadcast. 4) Jakov? Lizh?, Czech Rep. 5) Nicolai? Rossi?, Montevideo, Uruguay, heard Portuguese on 7280. 1721 ending, 1722 theme (Glenn Hauser, OK, WOR)

** TURKEY [non]. 11785, Sun Mar 29 at 2210, NO signal from VOT English on new A26 frequency and time into UTwente! Here we go again; nor on 9875, possible overrun of previous 2030-2130 broadcast; however, strong Esperanto on 9880, i.e. CRI Kashgar 500 kW 269 degrees for CIRAF 13-15. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 11785.019+, March 30 at 2157, no signal from VOT direct, or JBA carrier? Not by 2200 either, but running English at next check 2213, S9/+10, but some splash from 11780 Brasil which is slightly stronger, even when tuning USB. Same problem they`ve had for years in A-seasons, but stubbornly stick to it. Something`s always erroneous at Emirler. S9+10/25 at 2250 into UTwente when measured, with multi-lingual ID filler reel, Brasil not a problem there, JBA with splash from Turkey. 2252 s/off claiming to be on 17620 at 1230, of course! and IS to chop 2254+*. Something`s always awry in Ankara (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006+, Tue Mar 31 at 2155, VOT IS, S9/+10 direct but noisy, 2200 timesignal and opening: seems different soft-spoken male voice than usual and can`t be sure at first it`s really English; but VOT news and other sounders as usual. At 2234 into UTwente when measured, S9+20/25 music; 2239 Cemre narrating algo, 2245 outro for `Conflict Zones in Africa` as in Alan Roe`s program sked, music. 2249 ``always-by-your-side`` promo, music; 2252 s/off as if it`s the 1230 on 17620, awry at Ankara, few notes of IS and chop at 2253* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003+, April 1 at 2158 and still 2204, no signal direct from VOT English. Something`s always erroneous at Emirler. By 2224 check into UTwente, when measured, it`s on amid `Letterbox` repeat, S9+30. 2254 recheck, IS is playing. 2256 pause and restart IS with German IDs, up to old trix. 2302 still going in extraneous German, finally chop at 2303* (Glenn Hauser, OK, WOR)

** U K [non]. 9915, March 29 at 0645, `Weekend` on BBCWS, good direct, sounds like same voices on NZ new 13690 but not // or at least not synch. 06-07 is the only A26 hour of BBC on this legacy OOB frequency, 125 kW, 65 degrees from ASCENSION (Glenn Hauser, OK, WOR)

** U S A. 4095, March 30 at 0514, sweeps upward are JBA, from ``Desert Whooper`` which also sends DW in CW, that not yet heard again. But in Oct 2021, I got this reply from desert_whooper@protonmail.com -- ``Hi Glenn! The Whooper’s carrier is crystal controlled at 4095.65 KHz. The CW is at the crystal frequency and the whoops are an upward sweep from 4095.65 to 4095.80 (150 Hz). With a receiver tuned to 4095.0 KHz and an upper sideband filter that is 60 dB down at 6 Khz it would be possible to hear two signals mix together. All the best, DW team`` (Glenn Hauser, OK, WOR)

** U S A. 6586 USB, March 30 at 0521, 2-way ATC contact, exchanging numbers like 3564. EiBi shows only NY Radio with Caribbean (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2339 monitoring: confirmed UT Thursday March 26 at 0130 on WRMI 5010, S9+10/25 into Georgia SDR.

Also confirmed Thursday March 26 at 1730.5 on SW Radio Gold, Germany, 3975.001 and not 6160, S9+20 into UTwente.

2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2340 monitoring: confirmed UT Saturday March 28 at 0300 on WTWW 5085, finally back on the air, S9+40/50 direct, after ``Ancient Word Radio`` ID and just like old times, this

transmitter flanked by JBA spurcarriers plus/minus about 12.85 kHz, i.e. 5097.85 S9+20, and 5072.15 S9+10. No modulation on them. Followed at 0329 by some music till 0331* without ID or formal s/off.

Also confirmed Saturday March 28 at 1532 the 1530 on WRMI 9955, S9+30 into Georgia SDR.

Also confirmed Saturday March 28 at 1533 the 1530 on SW Radio Gold, Germany, 6160.001+, S8/9+10 into UTwente, and 3975 not on. From next week: 1430.

Also confirmed Saturday March 28 at 1700 on WRN via WRMI 9395, S9+25 into Georgia SDR.

Not confirmed Saturday March 28 at 1700 on WRN via WRMI 7730: cannot detect any signal into GA, FL, Bermuda SDRs, not even Miramar which used to perceive it by groundwave. From next week, WRN will be at 1600, so WRMI relays to be reconfirmed. We hope WRN put up A26 program skeds ASAP, linked via: https://encompass.tv/solutions/radio/world-radio-network/network-schedules/

Not confirmed Sat Mar 28 at 1945 the 1930v on WA0RCR, 1860 AM, MO: none of the nearest SDRs getting any daytime signal, but probably. Next:

2030 UT Saturday SW Radio, Germany 3975;
2030 UT Saturday WRN via WRMI 9395 to NNW;
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 17790 to SSE;
2230 UT Saturday WRMI 15770 to NE;
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];

[European DST changes start here]
[WRN at 0730 Sunday presumably shifts to 0630; please reconfirm which if any WRMI frequencies are carrying it then:]

0630 UT Sunday WRN via WRMI 5850 to NE;
0630 UT Sunday WRN via WRMI 5950 to NNW [sometimes];
0630 UT Sunday WRN via WRMI 7570 to WNW;
0630 UT Sunday WRN via WRMI 7730 to NE;
0630 UT Sunday WRN via WRMI 7780 to SW;

0930 UT Sunday IRRS SW 9510 via Romania;

[1030 UT Sunday presumably on WRN ex-1130 when no WRMI SW? Check 7570, 7780]

1900 UT Sunday IRRS SW via AM Italia 1323;
2000 UT Sunday IRRS SW via AM Italia 1323 - again per sked;
2130 UT Sunday SW Radio, Germany 3975;
2300 UT Monday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast] [new];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;

1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2340 monitoring: confirmed Saturday March 28 at 2030 on WRN via WRMI 9395, S9+30/35 into Georgia SDR. From next week should be at 1930.

Also confirmed Saturday March 28 at 2030 on SW Radio Gold, Germany, 3975.001, S9+5/10 into UTwente.

Also confirmed Saturday March 28 at 2100 on WRMI 9395, S9+20/30 into Georgia SDR. From next week should stay at same time, not from WRN.

Also confirmed Saturday March 28 at 2230 on WRMI 17790, S9, and 15770 S9+5 into Maryland SDR.

Confirmed UT Sunday March 29 at 0030 on IRRS/IPAR/NEXUS/IBA webcast only; preceding Wavescan was cut off without the usual closing wrapup; must have started a bit late. From next week: Saturday 2330 UT.

Also confirmed UT Sunday March 29 after 0130 on WRN North America stream, so they have finally made the DST switch, even tho updated sked not yet up.

Also confirmed UT Sunday March 29 from 0341 the 0315v on WA0RCR, 1860 AM, MO, S8 into N9AZZ IL remote. Next: [European DST changes start here]:

[WRN at 0730 Sunday presumably shifts to 0630; would those already or still awake please confirm which if any WRMI frequencies are carrying it then; and also the 0930, 1030, 1130? broadcasts]

0630 UT Sunday WRN via WRMI 5850 to NE;
0630 UT Sunday WRN via WRMI 5950 to NNW [sometimes];
0630 UT Sunday WRN via WRMI 7570 to WNW;
0630 UT Sunday WRN via WRMI 7730 to NE;
0630 UT Sunday WRN via WRMI 7780 to SW;

0930 UT Sunday IRRS SW 9510 via Romania; ex-1030; how is it in Europe?

[1030 UT Sunday presumably on WRN ex-1130 when no WRMI SW? Check 7570, 7780]

1900 UT Sunday IRRS SW via AM Italia 1323;
2000 UT Sunday IRRS SW via AM Italia 1323 - again per sked;
2130 UT Sunday SW Radio, Germany 3975;
2300 UT Monday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast] [new];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2340 monitoring in A26: At 0630 UT Sunday March 29 on WRN via WRMI, ex-0730: fortunately I am awake to check since no one replied to my request: now confirmed only on 5850 S9+20/25, and 7780 S9/+15, both with a ``hollow`` sound in degraded propagation, instead of 4 or 5 at a time: 5950 and 7730 off; 7570 with SMTV // 9395; algo else on 15770 JBA.

Also confirmed Sunday March 29 at 1044 the now 1030 ex-1130 on WRN via WRMI on 9395 S9+25, and 7780 S9. Tho still dated March 29, WOR radioskd and DX/SWL/Media programs have been updated thusly.

Also confirmed Sunday March 29 at 1923 the now 1900 on IRRS SW via AM Italia, 1322.997-, S9 into UTwente. Next:

2000 UT Sunday IRRS SW via AM Italia 1323 - again per sked:

https://www.nexus.org/member-services/radio-and-tv/schedules/sunday-program-schedule/
2130 UT Sunday SW Radio, Germany 3975;
2300 UT Monday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast] [new];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2340 monitoring: as per sked of IRRS SW via AM Italia, repeated one hour later, Sunday March 29 at 2000 UT on 1322.997- kHz, S9 into UTwente.

Confirmed Sunday March 29 at 2155 the 2130 on SW Radio Gold, Germany, 3975.001+, S8/9+5 into UTwente.

Confirmed Sunday March 29 at 2300 on WRMI 9395, S9+30 into Georgia SDR, but drops off air for a few sex every minute. At 2322, I posted this: ``WRMIs cutting off and on, stormy? The 2300 WOR on WRMI 9395 is constantly interrupted by transmitter dropoffs for a few sex at a time; same thing happening on 9455 vs Wavescan; and on 9955, and 15770, and I assume all WRMIs. Blitzortung shows no major storm in area, but maybe a very tiny one near Okee. I guess all power at the station is going off and on. Have not noted a problem like this before, resulting in unlistenable programming. Glenn``

``Hi Glenn, I've been listening since the beginning of the show and I'm still listening. It sounds fine here in central NC. On 9395 KHz. {later:} I'm listening to WOR on 9455 now. It sounds ok so far, but I've been listening only for a couple of minutes. 2333. I listened to the rest of WOR on 9455 kHz at 2330 and it sounded fine. I missed the first couple of minutes. Doug White KA5ETS, Carrboro, NC``

``9455 also OK here after 2330. If you had no breaks on 9395, it must have been the remote I was listening via, KU4SD in Athens, GA. Sure

seemed like a transmission rather than reception problem. Glenn``

Also confirmed Sunday March 29 at 2330 on WRMI 9455, VG direct.

Also confirmed UT Monday March 30 at 0030 on WRMI 7780, S7/9+10 into S Texas SDR.

Also confirmed UT Monday March 30 at 0300 on Area 51 webcast, just as WBCQ 5130 is signing off. Next:

1930 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast] [new];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2340 monitoring: ``Thank you for continuing with your World of Radio media universe: 260330 3975 1950 3003 D SW Radio, E //6160, Glenn Hauser's World of Radio 35433 HjBi``
(Hansjoerg Biener, Germany)

Also confirmed Monday March 30 at 1933 the 1930 on SW Radio Gold, Germany, 3975.001+, S9+5 into UTwente.

Also confirmed UT Tuesday March 31 at 0330 on WRMI 7780, S9+3 into Maryland SDR; unknown author interview program chopped off in progress at 0330.

Also confirmed Tuesay March 31 at 1328 the 1300 on WRMI 9955, S7/S9 direct; missed replay at 1400, but probably. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast] [new];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2340 monitoring: ``9510 {Sunday} 29.03.26 0930-1000 I IRRS, via Saftica, EE: DX PX "World of Radio". 45444 PR (Rumen Pankov, in Sofia (Bulgaria). RX: Sony ICF2001D. ANT: Rod & telescopic antenna, DX Fanzine)``

Confirmed Tuesday March 31 at 2016 the 2000 on IRRS SW via AM Italia, 1322.996+, S9+3 into UTwente.

Also confirmed NEW time March 31 of Tuesday 2230 on WRMI 9955, S9+10/25 tho noisy into Georgia SDR.

Also confirmed Tuesday March 31 at 2330 on SW Radio Gold, Germany,

3975.001+, S8/9+5 into UTwente.

Also confirmed UT Wednesday April 1 at 0030 on WRMI 9395, S9+20/38 into Georgia SDR.

Missed checking 1930 Apr 1 on SW Radio, Germany, 3975 as I thought it was still at 2030; but probably.

Confirmed Wednesday April 1 at 2100 on WBCQ 7490 -48 Hz = 7489.952, S6/S8 into Maryland SDR.

Also confirmed Wednesday April 1 at 2330 on WRMI 9395, S9/+10 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.

Thanks this week to Chris Campbell, Columbus OH, who sent a box of equipment. One may also contribute by MO or check on a US bank to: Glenn Hauser, PO Box 1684, Enid OK 73702.

Or via PayPal, not necessarily in US funds, to:
woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. Re: ``9930, March 25 at 1842, WTWW is unusually OFF, no TOMBS.`` --- The # 2 transmitter would not work on 9930. I had to cut # 1 off to replace power modules. Fixed the # 2 9930 problem later in the day. George McClintock 3-26-2026`` (Glenn Hauser, OK, WOR)

** U S A. 5085, March 30 at 0248, this WTWW is off again, and earlier this evening (Glenn Hauser, OK, WOR)

** U S A. 7490, UT Sat Mar 28 at 0000, WBCQ S9+30 into Vermont SDR, after FKB cut off, no disclaimer, but WTO theme for `AAAWWW` interrupted by ``real``, and Yes, we are real, not Memorex...`` so is repeat of last week, never mind. At 0015 check, *no* other WBCQ frequencies are on (Glenn Hauser, OK, WOR)

** U S A. 7780, Mon March 30 at 0526, operatic singing on WRMI. Maybe Prague which was at 0600-0630 on WRN in B-season; WRN A-26 not yet up (Glenn Hauser, OK, WOR)

** U S A. 4840, March 30 at 0515, WWCR-3 gospel huxter with constant squeal, i.e. pitch slightly varying, on both the R75 and PL660, so a transmission defect. Scheduled this hour only on Mondays is ``The Church of the Lord Jesus Christ of the`` + run out of space on the grid. Something`s notright at Nashville (Glenn Hauser, oK, WOR)

** U S A. 7505, Mar 28 at 0631, S9+10/25 of deadair from WRNO. Something`s messedup in Metairie, fouledup in Fort Worth (Glenn Hauser, OK, WOR)

** U S A. 7505, March 30 at 0524, WRNO undermodulated, not Chinese or English, so probably Hindi, pauses. EiBi shows Hindi irr. at 0300-0430 (Glenn Hauser, OK, WOR)

** U S A. 560, March 30 at 0459 UT, KWTO plug for ``93-7 The Stage``, Springfield. That`s KZMO, merely 1.1 kW H&V, in Fair Grove MO. KWTO`s own FM is a mere translator on 93.3. Fair Grove is just NE of Spfld. One wonders why anystation obviously intended to serve a much larger city be licensed to such an outlier town (Glenn Hauser, OK, WOR)

** U S A. 660, March 30 at 0507 UT, Navajo chanting, so must be KTNN yet again failing to null toward New York; makes it hard to hear XEFZ,

close to right angle (Glenn Hauser, OK, WOR)

** U S A. ``970 KVWM Show Low, AZ -- I had noted this station considerably off frequency at about 969.84 on March 21st. I can only receive them under auroral conditions, so didn't get them again until March 28th at 0600 UTC, but this time they were on 969.42. I didn't make the connection at the time, but this could well be the cause of the low audible het Glenn Hauser noted in his report for March 20th, from a freq of about 969.935. Given the current offset, and the speed with which it is getting worse I'm assuming this will have to be addressed soon, but in the meantime KVWM certainly stands out. 73, Nigel Pimblett, Dunmore, AB`` (via Glenn Hauser, WOR)

** U S A. 1290, March 31 at 0635 UT, without really trying, as I tune across, WIRL Peoria IL, announcing they are going to close down at *noon* March 31 - so they did not mean midnight by ``12 PM``. Permanent signoff, but conservative talk continues on so-called ``Freedom 95.9``. Then repeated. So that`s 1700* UT Tuesday March 31. Less than one sesquihour to go as I [first] post this.

At 1655 UT March 31, I tune in via the ``Will it play in Peoria`` KiwiSDR, joining 5 others listening there. Same about-to-sign-off announcement repeats over and over, then at 1658 a final final announcement by a station official whose name I do not catch or record, ``...for the final time, this is WIRL, Peoria, Illinois, signing off``, and plug pulled right at 1700* UT. Nothing but noise in the daytime. The closest surviving 1290s can be found in WI, MI, KY. We may take some comfort in one less far-right talker infesting the AM band. Here`s the remaining website: https://freedom959.net/

Replies: ``On 2026-03-31 11:25 a.m., Paul B. Walker, Jr. via groups.io wrote: It had been advertised that former personality from back in the day, who is also chief engineer, Wayne Miller, would be the one doing the sign off and shut down.``

``I had read that too, but in fact it was Mike Wild who did the final sign off. 73,s Nigel Pimblett, Dunmore, AB`` (Glenn Hauser, OK, WOR)

** U S A. 1440 kHz, March 27 at 0630 UT, checking for KPUR Amarillo which was dominant before, rather hearing ad for Nissan in Lawrence, and another after 0700, i.e. KMAJ in nearby Topeka KS. So is KPUR off again after pro-forma reactivation briefly to retain license? (Glenn Hauser, OK, WOR)

** U S A. 1680, March 31 at 0630, ``Super-tunes[?], 99.7 The Legend`` = KRJO Monroe LA, mere translator K259CU wagging this dog. Enid pirate on 1680 carrying stream of Virtual DJ Radio is easily overcome a few miles from it (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, UT March 31, KKLF Richardson TX now dominant at night with Mexmx, and English IDs at tops of hours, IIRC not mentioning any Spanish slogan (Glenn Hauser, OK, WOR)

** VATICAN. 11815, Mar 29 at 0638, RCC chanting, Slavic lang, S9+20/25, and // 9710 at 0643. In A26 this is Ukrainian liturgy Sundays only at 0605-0700, supposedly aimed 54 and 62 degrees, nowhere near sidewise thisaway yet VG (Glenn Hauser, OK, WOR)

** VATICAN. Re: ``11815, Mar 29 at 0638, RCC chanting, Slavic lang, S9+20/25, and // 9710 at 0643. In A26 this is Ukrainian liturgy Sundays only at 0605-0700, supposedly aimed 54 and 62 degrees, nowhere near sidewise thisaway yet VG (Glenn Hauser, OK, WOR)``

``The Ukrainian liturgy isn't anything at all like the RCC, Glenn.

It's basically an Orthodox service (only chanting/singing, and never any instruments like organs, etc). The Ukrainian Greek Catholic Church originates from the Union of Brest back in 1594 (I think), where the Orthodox Church split, with the Uniate faction (UGCC) uniting with the Church in Rome. All a very interesting history. You'd have trouble differentiating the 2 liturgies, although they do mention the Pope, of course, in the Uniate Church rather than the Patriarch. In Ukraine, the Orthodox and UGC churches only have their liturgies in Ukrainian these days, while the ROC still celebrates in Church Slavonic. Sorry for the history lesson, Glenn! Walt Salmaniw -- Enjoying the world of radio from my remote QTH on Haida Gwaii off the NW coast of BC, Canada``

Volodya, OK, but are you saying the RCC`s own VR broadcasts would not strictly adhere to RCC liturgies? Tho to an outsider this seems like splitting hairs. Glenn

``That's exactly correct, Glenn. Nothing Roman Catholic at all. Perhaps anything in Russian also wouldn't have any "RCC" flavour, either. Whenever I've been in a RCC church service, it feels absolutely foreign to me, while any Orthodox service, be it Greek, Armenian, or Ukrainian, I feel quite at home with the service (lots of chanting, incense, and the like) Walt`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 790, Mar 27 at 0658 UT, mentions 92.9 FM - no correlations in NRC AM Log, nor WTFDA FMDB. However, KNST Tucson has a sibling station on 92.9, The Bull. There could well be other instances of such one degree of separation, not obvious without deeper research (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1650 kHz, March 30 at 0501 UT, continuous less than 1 kHz tone, not a het since it`s DSB audible. Maybe KSVE El Paso TX which used to tone all-night, rather than TUDN sports in Spanish - but no tone at next check 0509 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5910, March 31 circa 06? UT, JBA carrier I did not even log, but Wolfgang Bueschel reports this date: ``COLOMBIA 5909.981 kHz Alcaraván Radio poor S=6-7 at 0457 UT``. Sibling LV de tu Conciencia has been reliably on 6010+, but not the 5910. Per EiBi & Aoki A26, the only other 5910 is Romania between 1430 and 2000, so should not be a problem. However, HFCC adds that 5910 is a 24h standby/placeholder by Vatican Radio for IRDR - the rarely if ever activated International Radio for Disaster Relief (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.0, March 29 at 0641, S8/S7 of dead air with JBA clix every trisecond. One of those long mysteries, what is this? Noise level barely low enough to audiblize the clix. Last logged Nov 17, 2025. Among other carrier mysteries always ending in -6 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15171.8 USB approx., April 1 at 1444, 2-way in Spanish INTRUDERS (Glenn Hauser, OK, WOR)
